

About LPW

We support children and young people living in Bristol, South Gloucestershire and the surrounding areas, providing engaging play and youth work embedded in communities. We also provide personalised part-time and full-time alternative education environments for children and young people to overcome barriers to engagement and learning.

At LPW, we provide safe, emotionally supportive and enriching spaces where children and young people build trusted and trauma-informed relationships; grow in confidence and independence; overcome challenges; and have ownership of their learning and future.

Our Values

We are...

Compassionate

We are trauma-informed offering safe, emotionally available spaces for children and young people to learn and thrive.

Collaborative

We work in partnership with children, young people, families, communities, and other professionals to achieve success.

Innovative

We are bold and creative in our approach to inspire confidence, independence and free thinking.

Inclusive

We celebrate and embrace diversity and ensure everyone is seen, heard and valued.

Brave

We foster strength and perseverance, even in the face of challenges and adversity.

Our key areas of focus are...

Play

Children need to play in lots of different ways and follow their own ideas, for their own reasons. It is these experiences that help children to learn, develop, and flourish.

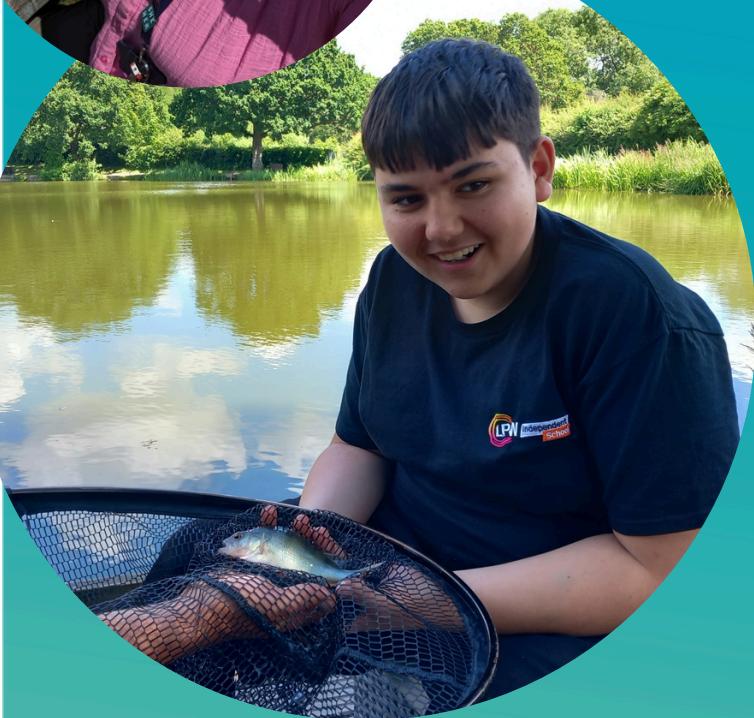

We are part of Bristol's thriving play sector and we are committed to creating as many opportunities for children to play as possible - in as many places and spaces too.

"I really like the sessions with my Engagement Worker.

I feel safe and supported by them." **LPW Education Recovery Project student**

Youth

Youth work provides opportunities for young people to engage with trusted adults, meet with peers, learn new skills and take part in a vast range of activities in their own community outside of formal education.

To us, youth work is about meeting young people where they are at, both physically and emotionally. It's about creating safe spaces where our Engagement Workers can engage with young people, earn trust, provide support and help them to access a whole range of opportunities that empower them to explore the world around them, learn skills and connect with others.

Education

We provide a holistic approach to part-time and full-time education. Our emotionally available learning environments enable children and young people to overcome barriers to engagement and access education.
